OggCamp is the biggest Linux and Free Software event in the UK!

13th & 14th August 2011
Farnham Maltings, Farnham (Surrey)

OggCamp 11 is a two day event run **by the community for the community**, based around the talks and activities that you (*yes, you!*) bring along with you. OK, you don't have to give a talk. You can just come along.

Last year we had **loads of great talks**, including election number-crunching, the *House That Tweets*, and *Mumbuntu — Ubuntu for your Mum!*

Anything with a geeky streak is welcome. Find out more and register for free tickets at **oggcamp.org**
